"We have used Fishbowl for just 18-months now. As a result it has enabled us to expand our business and open two new warehouses in two different Australian States.

We absolutely could not have grown so quickly without using Fishbowl in our business."

ANDY LEE, MANAGING DIRECTOR, SECUSAFE

RUN YOUR BUSINESS BETTER SO YOU CAN GROW TO THE NEXT LEVEL.

Based in Queensland Australia, Fishbowl Inventory takes care of more than 500 companies, and over 5,000 of their employees across Australia, New Zealand and South-East Asia every day.

The two flagship offerings of Fishbowl Inventory are Fishbowl Manufacturing (FBM) and Fishbowl Warehouse (FBW). As well as performing inventory management tasks such as **barcoding**, **serial number** and **batch tracking**, advanced **bill of materials** and **work orders**, Fishbowl also has seamless accounting integrations with Intuit **QuickBooks Online**, **Xero**, and **Reckon Accounts**. Integrations of this nature extend Fishbowl's capabilities by enabling **real-time inventory** and **accounting reporting** while increasing **data accuracy**.

Fishbowl Inventory is adaptable, easy-to-learn and is tailored to suit the unique needs of each business. Above all, we are real people who care. We implement Fishbowl onsite in your business, and we're always available on the phone whenever you need us.

FISHBOWL WAREHOUSE

Fishbowl Warehouse (FBW) – This platform **tracks inventory** across **multiple locations**, a feature that comes in handy for businesses with more than one warehouse, and offices across the country. Take control of your **customer's orders** and deliver what they order on time including special pricing. Gain more clarity on your **purchasing** by **accurately forecasting** and managing stock levels. **Customise reports** on all aspects of your operation.

FISHBOWL MANUFACTURING

Fishbowl Manufacturing (FBM) – The **affordable** inventory management platform for small & growing businesses. With the same features as big-money solutions used by massive companies, FBM is capable of **automatically** generating **work orders**, **bills of materials**, **assemblies** and other crucial tools at levels of complexity that previously only big ticket ERPs have been able to offer. Plus, FBM includes all the functions that come with the FBW software version.
