Proven Reliability and Functionality Fishbowl is a certified **QuickBooks Gold Developer**. FBW provides the added functionality of working on these proven platforms, giving you more versatility: • **Windows** • **Mac OS X** • **Linux**

We invite you to talk to one of our Inventory Software Specialists (ISS). They are highly trained professionals who will gladly assist you with your warehouse management needs. To see FBW in action, schedule an interactive product overview session. You'll connect to the desktop of an ISS via **GoToMeeting** and get a dynamic preview of the product, its

features, and how it can work with your business. This session can last anywhere from 10 minutes to 1 hour.

FBW is a powerful inventory management solution that will save you time and money, allow you to compete at a higher level, and grow your business.

Additional Fishbowl Products—Fishbowl offers a growing number of software solutions in addition to FBW. These are great fits for different types of companies, including manufacturers, wholesale distributors, e-commerce businesses, and retailers because of their advanced and comprehensive functionality. Check out their features below:
